V1

```

class UserAuth {
  - id: int {unique}
  - login: String {unique}
  - name: String
  - permissions[]: Enum
  - token: JWT Token
}
  
```

```

class User {
  - id: int {unique}
  - login: String {unique}
  - name: String
  - permissions[]: Enum
}
  
```

```

class JWTToken {
  - hash: String
  - expires: Timestamp
}
  
```

```

class GraphQLAPI {
  <<Interface>>
  + Authenticate(login, password): UserAuth
  + ValidateToken(user.id, token.hash): UserAuth
}
  
```
